Our Regular Correspondence. The last damp weather has enabled the tobacco men to prepare their tobacco for market, and some have a good sample lot stripped, ready for the inspection of buyers. No complaints of pole-rot bave yet been heard, and Bart's tobacco crop will

be well worth the attention of dealers. Mr. B. F. Fritz, proprietor of the hotel in Georgetown, has sunk his well and put in a new pump. The pump at the village hotel is known by some as the "town pump," as it stands out to the public, and is convenient to travelers as well as several families in the village. This fall is the first time that the writer ever knew the town pump to fail in a term of twentyeight years. It is now in good order with a supply of excellent water sufficient for all ordinary circumstances.

The tendency to crysiq clas reported some time ago is yet in the neighborhood though somewhat milder. OUR REGULAR CORKESPONDENCE

W. B. Given, esq., has gone to Harrisourg to file reasons for a rehearing before the state board of pardons in the case of the Columbia fishermen convicted of fishing within one-quarter of a mile of the Columbia dam. Argument before the pardon board has already been made in this same case, but unsuccessfully, and it is o be hoped that the facts to be brought before the board at its present sitting will be sufficient, and considered so by the board, to grant the prayers of the petition-

ers. The law in this case has been satis fied to a much greater extent than it was in the more important case of Kemble, Petroff & Co., and there is no reason why the petitions for the release of the fishermen should not receive due consideration and be acted upon in a just and non-parti san spirit.

The recent heavy rains have had their ffect on the Susquebanna at this place, and the river is now about three feet above low water mark. The principal rise took place yesterday and during last night. The water is very muddy. This rise has been for some time anxiously awaited by river pilots and raftmen generally, as a ficet of rafts have been expected to make their appearance here on the very first opportunity presenting itself. This opportanity is here and with it half a dozen rafts made their appearance at Marietta this morning. Some of the oldest river pilots are here and at Marietta, and they will take the rafts through to their desti nations as fast as they come in. It is ex-

peeted that this flood will float quite a fleet of rafts here and further down. A mistake was made in getting up the Pennsylvania railroad schedule going into effect to-day. The Pacific express east leaves Laneaster forty minutes later than by the old schedule and to meet this a change of the same time should have been made in the leaving time of the Frederick accommodation train east of Columbia, but this was entirely ignored or overlooked and the leaving time of the train kept as it was. Attention has been called to the mistake since the schedule was issued and the leaving time of the train fixed at 1:05 , m, forty minutes later than published on the new schedule.
